5. Contents and Assessment

Sprint 1

Points Planned: 18

Points Earned: 16

Story	Points	Result
Login Management (Register, Login, OTP, Forgot Password, Logout)	5	Finished
Alert / Messages Management (List, View, Compose)	3	Finished
Account Management (Category Accordion, Balance Display)	3	Finished
Profile Management (View, Edit, KYC Upload)	3	Finished
Dashboard (Net Balance, Accounts Summary, Recent Transactions)	2	Finished
Account Detail View (deferred to Sprint-2 per plan)	2	Not finished

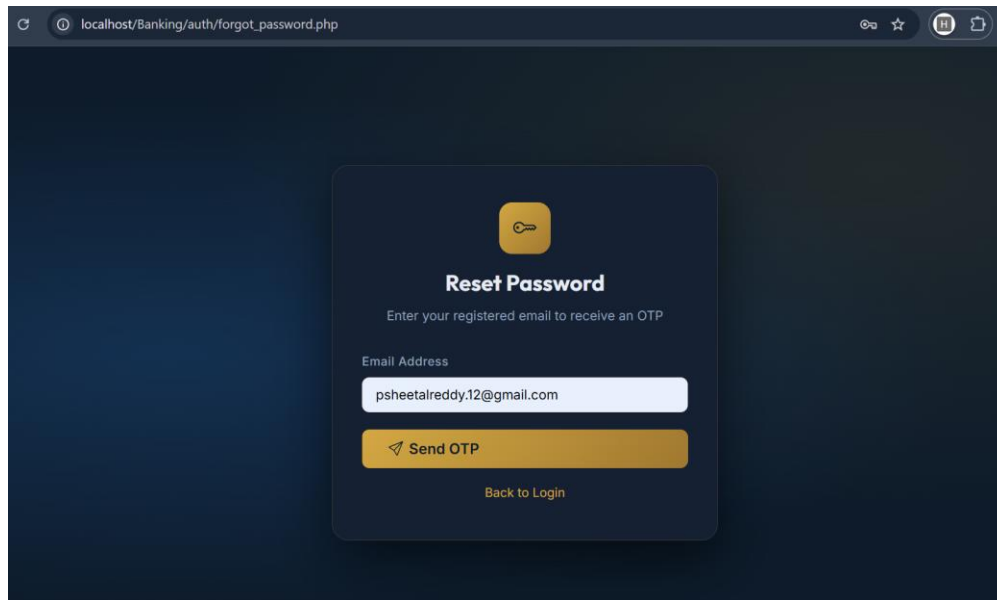

Sprint 2

Points Planned: 17

Points Earned: 17

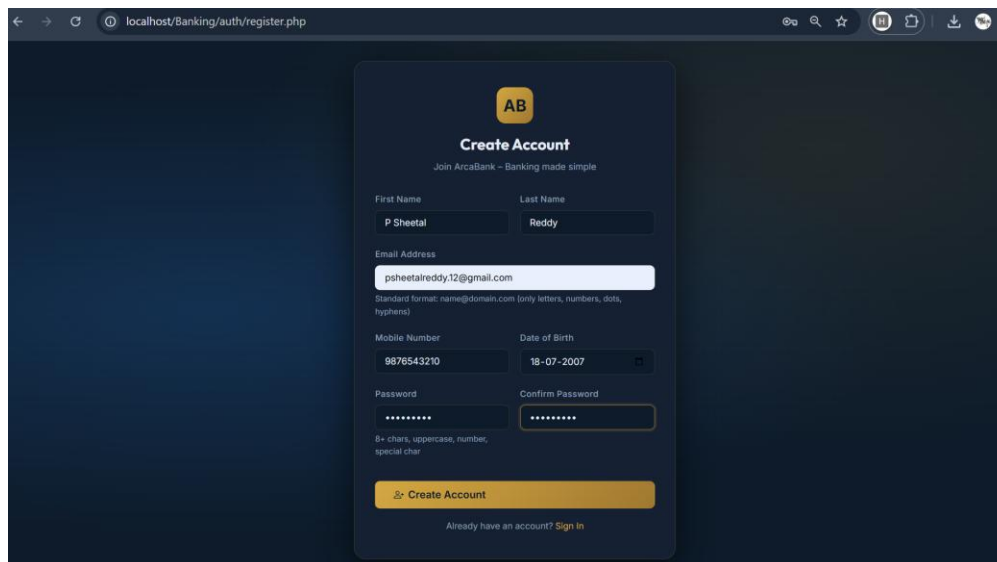

Story	Points	Result
Transaction History (Filters, Expandable Rows, Dispute)	5	Finished
Fund Transfer (Payee Setup, Standing Instructions, Confirm)	6	Finished
Make Payment (CC/HL, Balance Check, OTP Confirm)	6	Finished

6. Sprint 1 Implementation

The screenshot shows a web browser window with the address bar displaying `localhost/Banking/auth/forgot_password.php`. The page has a dark blue background. In the center, there is a white rounded rectangle containing the following elements:

- A yellow key icon inside a circle.
- The title **Reset Password**.
- The instruction: Enter your registered email to receive an OTP.
- A label **Email Address** above a text input field containing `psheetalreddy.12@gmail.com`.
- A yellow button with a paper plane icon and the text **Send OTP**.
- A link [Back to Login](#) in yellow text.

The screenshot shows a web browser window with the address bar displaying `localhost/Banking/auth/register.php`. The page has a dark blue background. In the center, there is a white rounded rectangle containing the following elements:

- A yellow square icon with the letters **AB**.
- The title **Create Account**.
- The subtitle: Join ArcaBank - Banking made simple.
- Two input fields for **First Name** (containing `P Sheetal`) and **Last Name** (containing `Reddy`).
- A label **Email Address** above a text input field containing `psheetalreddy.12@gmail.com`.
- Below the email field, the text: Standard format: name@domain.com (only letters, numbers, dots, hyphens).
- Two input fields for **Mobile Number** (containing `9876543210`) and **Date of Birth** (containing `18-07-2007`).
- Two input fields for **Password** and **Confirm Password**, both containing masked characters (dots).
- Below the password fields, the text: 8+ chars, uppercase, number, special char.
- A yellow button with a paper plane icon and the text **Create Account**.
- A link [Already have an account? Sign In](#) in yellow text.

Sprint 2 Implementation

7. Sprint Review

The sprint review was held on 27th March 2026 and attended by P Sheetal Reddy (Scrum Master), Kharwadkar Arya Dilip (Product Owner), Khandelwal Yash Ajay (Developer), Allam Mahitha (Developer), Kondapaneni Nikitha (Developer), Vijay Raj Shekhar (Tester), and Prakash G (Faculty).

Before approving or rejecting product backlog items as noted above, key decisions from the review were:

- All planned Sprint 2 features — transaction history, fund transfer, and payment modules — were demonstrated on localhost and accepted by the Product Owner as meeting the Definition of Done.
- The faculty advisor (Prakash G) recommended adding daily transaction limit, failed transaction handling method; the team agreed to address this as a post-sprint polish item.

8. Sprint Retrospective

The team held a sprint retrospective on 28th March 2026. It was attended by P Sheetal Reddy, Kharwadkar Arya Dilip, Khandelwal Yash Ajay, Allam Mahitha, Kondapaneni Nikitha, Vijay Raj Shekhar, and Prakash G (Faculty). Key decisions were:

- The team agreed that conducting daily standups consistently throughout both sprints significantly improved task visibility and reduced last-minute bottlenecks; this practice will be retained in any future projects.
- It was decided that code reviews and integration testing should begin from the midpoint of each sprint rather than the final days, as late-stage testing caused avoidable rework during Sprint 1 — this adjustment proved effective in Sprint 2 and will be carried forward as a team norm.
